SAVEETHA SCHOOL OF MANAGEMENT

Saveetha School of Management is an eminent B-school which was established in the year 2008 with the aim to become a Global Player in Management education. SSM commits itself to producing Industry-specific Management professionals who will be ready to plug-n-play. The unique selling proposition (USP) of SSM is to produce MBA candidates with hands-on experience. We offer an experience of harnessing the core skills and help students to develop their ability to define goals, inspire people and create a unique pathway for their career establishment. MBA programme is offered under dual specialization model with specializations in Marketing, Finance, Human Resource Management, Systems, Production, International Business Management, Hospital Management and Logistics and Supply Chain Management. In order to impart additional knowledge the courses on life skills for success, emotional intelligence, counselling & grievance handling and social welfare activities are offered to the student community at SSM

Why Executive Development Program?

Executive development programmes capitalise the institution's high-tech entrepreneurship culture to help entrepreneurs, corporate venture capitalists, managers, administrators and start-up companies comprehend the whole venture development process, from idea generation to establishing profitable innovation-driven organisations. The executives who join these program will be introduced to the information, context, and contacts that enable entrepreneurs and intrapreneurs to build and launch successful new enterprises through lectures by experienced faculty, visits to start-ups, and live case studies discussion with entrepreneurs. Hands-on instruction and practical experience, crafting a business plan through specially designed team projects, while networking enhances interactions with members of entrepreneurial community

WHY INFORMATION MANAGEMENT AND DOCUMENTATION?

A common concern of most developing countries is health care sector include the sources of finance for health services, the ability of the public sector to maintain past funding levels, resource allocation patterns in the public sector and the efficiency of health service delivery. As healthcare is one of the world's largest service sectors absorbing over 8% of Global GDP and 5-10 percent of total government budget in most developing countries; it is necessary to understand the various government policies and regulations and various funding practices towards the healthcare sector. Health financing involves not only methods of raising money for health care, but also the allocation of those funds for the daily operations and future development

WHY THIS PROGRAMME?

Healthcare organizations operate the same way like how other business operates and rely on strong financial management. The primary role of financial management in healthcare organizations is to manage money and risk that assist to achieve the financial goals of the organization. When a healthcare organization has strong and organized financial management plans, they're able to provide efficient healthcare to all their patients. This program will enable the managers to manage the funds in most effective manner, and also achieving overall goals of the hospital
